

Spring 2024 Natural Science Colloquia

Sustainable Plastics

James Eagan, TTH 10:45 am to 12:00 pm

HONOR 370001

This course introduces students to sustainable plastic technologies, challenges, and the principals of the circular economy. Students will be able to understand the how different kinds of plastics are recovered, sorted, and recycled (or not). Topics covered include polymer recycling, composting, biodegradable plastics, and life cycle analysis.

The Art and Science of Modern Beekeeping

Laura Zinke, TTH 2:00 pm to 3:45 pm

HONOR 370002

Did you know that a honey bee only produces 1/12th of a teaspoon of honey in its lifetime? Is there such thing as ethical or natural beekeeping? This Honors colloquium offers a comprehensive exploration into the world of modern beekeeping. From understanding honey bee biology and hive maintenance to the ethical considerations

The Psychology of Physical Activity

Alan Kornspan, Online Asynchronous

HONOR 37501

The focus of this course is on the psychology of physical activity within the context of natural science. The course
